# Why Invest in BTC2X-FLI?

Flexible
Leverage
Index
(BTC2X-FLI)

# **Mission**

The Index Coop allows nontechnical investors to access the same returns as highly technical crypto insiders.

# **Product**

FLI products give investors exposure to leveraged positions while minimizing transaction costs and managing risks associated with collateralized debt positions.

# **Key Benefits**

### **Double Your Exposure**

Uses your BTC to borrow USDC through Compound, then uses that USDC to buy additional BTC through Uniswap.

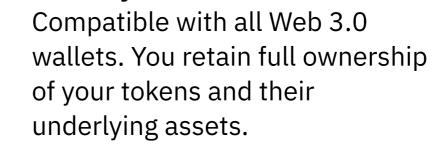

#### **Ease of Use**

Simply buy the token and let it rebalance itself.

## **Limit Liquidations**

Emergency deleveraging initiates during Black Swan events.

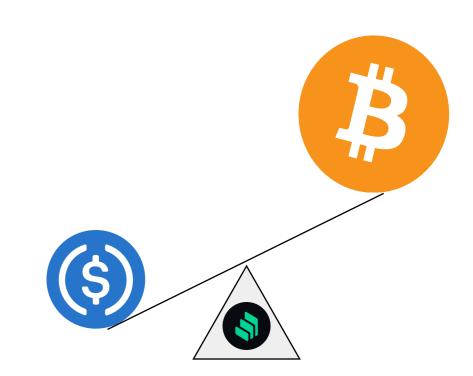

# Custody

#### **Reduced Gas Costs**

Unique Index algorithm reduces rebalancing needs by an order of magnitude.
